

Safer, Healthier Breast Screening in Roanoke

The next Thermography screening at our office in Roanoke will be on Monday, February 19, 2024, from 2:30-5:30 pm. **Please note that you will need to call the number below to schedule an appointment—our office does not do scheduling for thermography.**

Thermal imaging is FDA registered, safe, painless and non-invasive plus it can detect breast tissue changes very early. It is also used to detect and follow inflammation; half-body and full-body screenings are available in addition to breast screenings. **To learn more or to schedule a screening call 888-580-0040.** Also, check out the website www.longevitythermography.com.
